48"	51.325"
48"	53.625"
50"	55.625"
52"	57.625"

TPP BLAST GUARDS ERADICATE THE NEED FOR THE TRADITIONAL METHOD OF DUCT TAPING/MASKING FLANGE FACES. NO HASSLE. SIMPLY CLEAN THE SURFACE, PEEL AND PLACE YOUR BLAST GUARD ON THE FLANGE FACE, THEN BLAST/PAINT AWAY!

UNLIKE DUCT TAPE, OUR BLAST GUARDS ARE DESIGNED TO BE APPLIED BEFORE BLASTING AND LEFT IN PLACE THROUGH PAINTING, BAKING, STORAGE, AND SHIPPING; ALL THE WHILE LEAVING NO RESIDUE WHEN REMOVED.

EACH BLAST GUARD IS PRECISELY CUT TO YOUR SPECIFIED DIMENSIONS WITH OUR CNC MACHINERY. TYPICAL SIZES FOLLOW ANSI STANDARD NOMINAL FLANGE DIMENSIONS, MAKING THEM INTERCHANGEABLE BETWEEN PRESSURE CLASSES.

CUSTOM LOGOS, BARCODES, JOB NUMBERS, SHAPES OR SIZES ARE NO PROBLEM. WE'RE HAPPY TO ACCOMMODATE ANY SPECIAL REQUESTS AND IT WOULDN'T BE THE FIRST TIME. WE'VE MADE BLAST GUARDS IN THE SHAPE OF RINGS, RECTANGLES, SIGHT GLASSES, NAMEPLATES, BUTTONS, ETC.
